... FOR HAIL IMPACTS OR PARKING SHOCKS  
... DEPENDING ON THE DISTORTION AND PAINT DAMAGES,

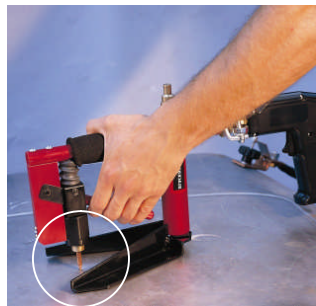

ONE SINGLE TOOL FOR TWO MAIN USES:

**1. USE WITH GLUE** for jobs without painting on steel or aluminium sheet  
Repair a surface damaged by the hail by using the pad and the hot glue, without painting.

## **2. USE WITH DENT REMOVER**

In case of major deformations, or of paint damage, the Bi-Puller becomes a dent puller, combined with any multiple functions electrical dent remover.

### **Reference BST 202**

1 lever BI-PULLER  
1 gun for hot glue  
1 kg glue GS  
2 pads ø 20 mm  
2 pads ø 25 mm

1 pad-holder
